

Automatic Cartoning Packing Machine Connecting Multiple Trains 304 Stainless Steel

Specifications :

Brand Name	Hanyi
Place of Origin	Shanghai, China
Min.Order Quantity	1unit
Payment Terms	T/T
Delivery Detail	5 days - 20 days
Packaging Details	Standard export wooden case or carton box.

Detail Introduction :

Connecting Multiple Trains

Description

The equipment is a customized special automatic packing machine.

The front end is connected with multiple row machines or multiple single row machines (either powder or liquid filling machines).

The equipment is an automatic feeding system integrating side feeding, counting and handling. After counting is completed, it is automatically imported into the box loading machine. A series of mechanical actions can automatically open the box, push the material into the box, seal the box and output the finished product. The back end can also be connected to code printing/spraying machine, inspection machine, gold inspection machine, packing machine and other equipment, to achieve automatic intelligent production line.

Specifications

Packing speed		~120 Box/Min
The carton	The quality requirements	250-350g
	Size range	(80-240) × (15-200) × (15-90) mm

The instructions	The quality requirements	60-70g/?
	Unfolded size Range (1-4 folds)	(130-190) × (90-130) mm
The compressed air	Main motor power	?0.16m ³ /min 0.6mpa
Main motor power		1.5Kw 220V/380V 50HZ
Overall dimensions		3400×1200×1800mm (Can be extended)
The whole machine net weight		1300kg
Hot melt adhesive machine		Selected by customers (our company usually USES domestic Jingtai or imported Lebest)
