Linear Plastic Anti-Cover Capping Machine With Stainless Steel Conveyor For Plastic Bottle

Özellikler :

Marka Ad?	Hanyi
Üretim Yeri	Shanghai, China
Minimum Sipari? Miktar?	1unit
Ödeme ?artlar?	T/T
Teslimat Detay?	5 days - 20 days
Paketleme Detaylar?	Standard export wooden case or carton box.

Detayl? Tan?m :

Linear Plastic Anti-cover Capping Machine

Product description

Plastic anti-cap screw capping machine is a kind of equipment placed under the conveyor belt and keeps running synchronously with the conveyor belt. Gradually tilt downwards and realize the capping function through the capping chain plate. It is used to press various plastic anti-counterfeit covers.

1. The machine uses stainless steel chain plates as a conveyor belt, which is reliable in work;
2. Using the principle of synchronous chain plate type capping, all kinds of plastic anti-counterfeiting caps can be capped without any scratches;
3. The body is made of stainless steel and has a beautiful appearance.

Features:
It has the characteristics of simple structure, reliable operation, convenient adjustment and good gland quality.

Specification:

Applicable bottle type	all kinds of special-shaped bottles
Bottle mouth diameter	18-38mm
Bottle height	100?360 mm (can be customized beyond the range)
Power of the whole machine	0.18 kW
Speed regulation mode	stepless speed regulation
Production efficiency	8000-10000 bottles/hour
Dimensions	1000×600×1500 mm
Weight	60kg
