

Stainless Steel Automatic Bottle Filling Capping And Labeling Machine For Beverage Filling Packaging

Spesifikasi :

Harga	Contact Us
Nama Brand	Hanyi
Tempat Asal	Shanghai, China
Min.Jumlah Pemesanan	1 unit
Syarat Pembayaran	T/T
Detail Pengiriman	5 days - 20 days
Detail Packing	Standard export wooden case or carton box

Detail Pengenalan :

This filling line specially for 3-5gallons barreled drink water, with type QGF-100, QGF-240, QGF-300, QGF-450, QGF-600, QGF-900, QGF-1200.

It intergrates bottle washing, filling and capping into one unit. In order to achieve the purpose of washing and sterilizing. The washing machine use multi-washing liquid spray and-thimerosal spray. This thimerosal can be used circularly. The capping machine can cap barrel automatically, this line equips with water spraying device in order to ensure those caps sterilizer and clean.

It also can automatically carry out barrel, washing, sterilizing, filling, capping, counting and products discharging, with complete function, modern design and high degree of automation. It is a new kind of barreled water auto-production line, which intergrates mechanism, electricity and pneumatics technologies together.

Main Features:

1. This filling line specially produces 3&5 gallons barreled drinking pure water.
 2. This series barreled filling production line integrates bottle washer, filler and sealer into one unit.
 3. In order to achieve the purpose of washing and sterilizing, bottle washer adopts multiple liquid injections washing and disinfectant spray, and washing solution can be used circularly. The sealer can seal bottle caps automatically.
 4. This filling line equips with water spraying device to sterilize caps of bottles in order to ensure those caps are aseptic and healthy.
 5. This line also can automatically carry out bottle washing, sterilizing, filling, capping, counting and products discharging.
 6. It has features of complete functional, novel design, and high degree of automation. It is a new kind of barreled water auto-producing line, which integrates mechanism, electricity and pneumatics technologies together.
