

First-level Packaging Code Assigned Control System With Multi-Functional Man-Machine Interface

Spesifikasi :

Nama Brand	Hanyi
Tempat Asal	Shanghai, China
Min.Jumlah Pemesanan	1 unit
Syarat Pembayaran	T/T
Detail Pengiriman	5 days - 20 days
Detail Packing	Standard export wooden case or carton box.

Detail Pengenalan :

First-level packaging code assigned control system

Application:

The electronic supervision code system is suitable for the first-level packaging of boxed products, and can complete the processes of code distribution, code acquisition, rejection, and shunting.

Specification

Product size	Thickness: 10-40mm, Width: 10-100mm, Length ?300mm
Processing speed	30-200 boxes/minute (related to materials and actual conditions)
Bar code collection surface	plane, side
Power supply and power	220VAC±5% 50Hz 2Kw
Working pressure	0.4-0.7 Mpa
Dimension	(L)1,500×(W)1,000×(H)1,000 mm

Main features

1. The composition and mechanism of the equipment:

The equipment is composed of belt conveyor, PLC central controller, fixed collector and rejection mechanism.

2. Operating system:

Multi-functional man-machine operation interface, visual monitoring of production counting, parameter adjustment, etc., with rich help functions and fault display functions;

3. Main body:

The body and parts are all made of S304 stainless steel and high-grade aluminum alloy. Sandblasting and oxidation treatment, never rust, high corrosion resistance, beautiful appearance.

4. Code picking mechanism:

Industrial optical grating bar code reader, fast reading speed and accurate recognition. Automatically collect and read the bar code on the medicine box and transmit it to the industrial computer at the same time, and the coding software system performs data analysis and comparison, and transmits the processing result to the actuator.

5. Rejection mechanism:

Cylinder type or air blowing type rejection method. Executing the instructions transmitted by the

industrial computer to eliminate the unqualified or incorrect products to ensure the accuracy of the products and the fluency of the production line.

FAQ

1. Whats the lead time/manufacturing period for the labeling machine?
10-25 working days.
2. Are you a trading company or a manufacturer?
Factory with core technology.
3. Where is your factory located?
Shanghai, close to air port.
4. What is your MOQ?
1unit.
5. Whats the payment term?
T/T.
6. What about your after-sales support?
24 hours,timely response.
7. How do you pack the equipment?
Standard export wooden case with CE mark.
8. If OEM is acceptable?
OEM is acceptable.
9. Can you can design the equipment according to our size?
Sure.We offer different solutions based on different requests.
10. Do you have detailed and professional installation manual?
Yes, we have detailed manual and will pre-set parameters for you.
