## Detail Introduction :

### Automatic L-shaped sealing and cutting machine

#### Device Description:

This machine has the functions of automatically wrapping, sealing and cutting, and skin-shrink packaging of single-package products at one time.

The goods packaged by this machine are intuitive, convenient to transport and low in cost. This machine is widely used in the packaging of medicines, food, beverages, stationery, daily necessities, cosmetics, hardware tools, electronic products and other items.

It adopts imported heat-insulating material and imported radiator pipe for heating, and adopts circulating heat dissipation, so that the heating is more even. Power saving and high efficiency (over 15% power saving); the shrinkage temperature and motor transmission speed are stable and adjustable, and the adjustment range is wide; the original air jet device. Therefore, this product has the characteristics of advanced design, extremely stable and reliable performance, good packaging shrinkage effect, novel and beautiful structure, convenient operation and maintenance, etc.
