

Small Scale Stainless Steel Edible Oil Bottling Filling Machine Customized Volume

Specifications :

Price	Contact Us
Brand Name	Hanyi
Place of Origin	Shanghai, China
Min.Order Quantity	1 set
Payment Terms	T/T
Delivery Detail	5 days - 20 days
Packaging Details	Standard export wooden case or carton box

Detail Introduction :

Description

Automatic Oil filling machine is the newest small-scale packing equipment which our company develop out. It can be used for filling and capping various liquid and emplastical liquid, and it has advanced quantitative filling technical, composed with electricity intelligentize controller and program controller into one body, so that it is a new product with motor, electric in one.

High precision flowmeter and micro electricity numerical control meter fall together as the measurement system and results in a very high precision in filling.

Also it can be adopted step-less governing in filling volume, very intuitionistic and easy operation. The distance and height of each filler head can be adjusted of scope to fit for different size of container.

Highly automatic conveyor belt automatic controlled by the program controller working in linear in different produce speed. Main body are made of quality stainless steel, so that it is sanitation and durable steady-going for long-time working. Infrared auto-induction capping machine increase speed of packing.

With reliable performance, high in quality and reasonable in price, it becomes the most ideal filling equipment in lipin, petroleum, chemical etc.

Application

Widely used in quantitative filling various of liquid and emplastical liquid, such as edible oil, lube, etc.

Main Features

With touch screen or digital screen, adjust filling quantity directly.

With PLC program controller, frequency conversion adjust linear filling speed.

With High precision flowmeter, credible and precision in quantitative filling.

With mechanise sealing, vacuum suck to prevent dripping.

Highly active filling in double velocity of flow from speediness to slow.

Specification

Model	HY-4A	HY-6A	HY-8A	HY-10A	HY-12A
Suitable bottle	250ml/3000ml/20000ml				
Power	AC/220V AC/380V				
Dimension	1500*950*1800	1900*950*1800	2300*950*1800	2700*950*1800	3200*950*1800
Weight	700	750	800	900	1000

Shanghai Hanyi Engineering Equipment Company is one of the most experienced suppliers of filling machines and solutions in China.
