

High Productivity Automatic Bottle Filling Capping And Labeling Machine

Spesifikasi :

Harga	Contact Us
Nama Brand	Hanyi
Tempat Asal	Shanghai, China
Min.Jumlah Pemesanan	1unit
Syarat Pembayaran	T/T
Detail Pengiriman	5 days - 20 days
Detail Packing	Standard export wooden case or carton box

Detail Pengenalan :

Description

It is especially designed for bottled drinking water production. By all sorts of constitute it can fit for typical of PET bottles.

All the line consists of washing machinery, gravity filler, capping machinery, conveying system.

Main Features:

1. This filling line specially produces 3&5 gallons barreled drinking pure water.
 2. This series barreled filling production line integrates bottle washer, filler and sealer into one unit.
 3. In order to achieve the purpose of washing and sterilizing, bottle washer adopts multiple liquid injections washing and disinfectant spray, and washing solution can be used circularly. The sealer can seal bottle caps automatically.
 4. This filling line equips with water spraying device to sterilize caps of bottles in order to ensure those caps are aseptic and healthy.
 5. This line also can automatically carry out bottle washing, sterilizing, filling, capping, counting and products discharging.
 6. It has features of complete functional, novel design, and high degree of automation. It is a new kind of barreled water auto-producing line, which integrates mechanism, electricity and pneumatics technologies together.
- Shanghai Hanyi Engineering Equipment Company is an experienced supplier of filling machines and solutions in China.
