

Push-arm Printing And Labeling Machine For Automated Production And Packaging Lines

Özellikler :

Üretim Yeri	Shanghai, China
Minimum Sipari? Miktar?	1unit
Ödeme ?artlar?	T/T
Teslimat Detay?	10-25 working days.
Paketleme Detaylar?	Standard export wooden case with CE mark.

Detayl? Tan?m :

Push-arm printing and labeling machine

Description:

Real-time online printing labeling machine is suitable for food, medicine, logistics and automobile industries.

Integrating thermal transfer printing with automatic labeling technology, it is widely used in automated production and packaging lines and the intermediate links of logistics to realize the functions of automatic printing, printing and sticking of real-time information, avoiding man-made labeling errors occur in real-time content, and the information is reflected on the labeled objects in real time and effectively.

It can also be connected to the system database to achieve multiple level-coded association provides an effective implementation tool for anti-counterfeiting and anti-smuggling in various industries.

Main features:

1. Oversea brands pneumatic components, high-speed and long-life pneumatic push-arm type stamping and labeling arm.
2. Suitable for labeling on top, side, bottom or inclined position.
3. Adapt to various labeling surfaces such as flat and cylindrical surfaces.
4. The labeling pressure sensor can automatically handle different product labeling height.
5. The maximum printing width is 6.6 inches (168mm), and the maximum printing accuracy is 600dpi.
6. The maximum length of labels and ribbons is 900m, which reduces the number of stop-line switching.
7. The fastest can reach 60 labels per minute, supporting 24 hours high-speed continuous printing and labeling.

Factory and application

Hanyi Labeling machine has been widely used in different fields.

Shanghai Hanyi Engineering Equipment Company is an experienced manufacturer of labeling machines and solutions in China.

FAQ

1. Whats the lead time/manufacturing period for the labeling machine?
10-25 working days.
2. Are you a trading company or a manufacturer?
Factory with core technology.
3. Where is your factory located?
Shanghai, close to air port.
4. What is your MOQ?
1unit.
5. Whats the payment term?
T/T.
6. What about your after-sales support?
24 hours,timely response.
7. How do you pack the equipment?
Standard export wooden case with CE mark.
8. If OEM is acceptable?
OEM is acceptable.
9. Can you can design the equipment according to our size?
Sure.We offer different solutions based on different requests.
10. Do you have detailed and professional installation manual?
Yes, we have detailed manual and will pre-set parameters for you.
